- 1. Make sure the file is in xlsx format.
- 2. First row is for header name and ensure the row contain these columns only:
 - The staff_id_rw column is for the staff ID.
 - The **staff_name** column is for the staff's name.
 - The **dept_id** column is for the department's ID.
 - The **depart_name** column is for the department's name.
 - The **status** column is for the staff's status.
 - The group_id column is for the group's Key ID.
- 3. The second and the next rows are for body (staff's data).

How to define staff's group id?

- 1. Firstly, go to GROUPS page, where the groups are displayed together with their key ID.
- 2. Second, choose which group you want the staff to belong to. For example, if the staff belong to **Branch 2**, therefore its group id in the excel will be 5. If the staff belong to Office 2, its group id in the excel will be 2.

Sort Ord	er 🕶			
KEY ID	GROUP NAME	DESCRIPTION	LICENSES	PROJECTS
5	Branch 2	Details	• Web	Advanced Fr
4	Office 3	For Executives	• Web	NextGen Bar
3	Branch 1	For department's manager	• Web	NextGen Bal
2	Office 2	For Managers	• Web	NextGen Bar
